## TECHNICAL SKILLS

---

**Languages:** JavaScript, HTML/CSS, SQL

**Libraries/Frameworks:** React, Bootstrap , AntDesign , Tailwind CSS, Laravel, Supabase, Firebase, React native, Chartjs, Nodejs, Expressjs , VectorDB

**Developer Tools:** Git, VS Code

## EXPERIENCE

---

### 2.5+ years of experience as a Full Stack Developer

Skilled in building full-stack applications with modern UI and optimized backend performance. Proficient in integrating third-party APIs, database optimization, and implementing role-based authentication. Experienced in developing scalable and responsive web applications with a focus on performance and user experience.

**2022-2023 :- Started Learning HTML CSS JS Reactjs**

**2023-2025 :- Full Stack developer at Two Techies Pvt LTD**

**2025-Present :- Freelancing and Learning AI/ML**

## PROJECTS

---

### Accountizer | [Project Link](#) | *React, Ant Design, Laravel, Dailyco*

- Developed and implemented a web-based marketplace platform that connects Canadian businesses with vetted accounting, tax and financial advisory professionals, streamlining the expert-matching process for industry-specific needs.
- Leveraged data-driven logic (including AI/ML-suggested matching) to enhance user experience by automatically recommending the best-fit financial expert based on business type, goals and location.
- Designed and built an interactive dashboard for users and experts to manage service requests, document exchange, messaging, quote comparison and secure payment workflows all in one place.
- Implemented domain-specific workflows tailored for verticals such as the construction industry (job costing, payroll, tax filing, profitability tracking) to ensure relevance and high adoption for niche sectors.
- Collaborated with cross-functional teams (UX/UI designers, back-end engineers, data analysts) to deliver the SaaS platform from concept to launch, achieving measurable improvements in engagement and service-matching speed

### Meerani - Ecommerce Cloth Store | [Project Link](#) | *Odoo*

- Developed and launched a full-featured online storefront using Odoo's e-commerce module, enabling the business to showcase product listings, apply promotional offers and streamline the purchase funnel.
- Configured product catalog and variant management for a fashion brand (embroidered shirts, frock tops, etc.), with dynamic pricing, discount campaigns and responsive layout, ensuring an optimal user experience across devices.
- Implemented user engagement features such as special discount codes, track-your-order interface, and account login functions ("Sign in", "My Orders") to boost customer retention and repeat purchase rates.
- Collaborated with UI/UX designers to apply a brand-centric visual identity (e.g., banners "Introducing Our Latest Fashion Trends", image-rich product listings) and optimized the store for desktop and mobile responsiveness.

### Daily Time Report (Film Production Timesheet System) | [Project Link](#) | *Reactjs Bootstrap Laravel*

- Built a role-based timesheet management system for the film industry to track crew attendance, work hours, and department assignments across multiple productions.
- Implemented three-tier authentication (Admin, Super Admin, Employee) to ensure secure and hierarchical access control for production-level and global management.
- Designed a real-time reporting dashboard that allows admins to monitor active productions, employee log-ins/outs, overtime, and department-wise productivity at a glance.
- Developed CRUD functionality for productions, departments, and users, enabling smooth onboarding and dynamic team assignments across film projects.
- Automated daily time report generation with exportable summaries (CSV/PDF) for accounting, billing, and compliance purposes.

### Some other minor projects

- Image Chat bot | [Project Link](#)
- AKS Fitness Gym | [Project Link](#)
- Dental Clinic | [Project Link](#)
- Personal Portfolio | [Project Link](#)
- IT Agency website | [Project Link](#)

### EDUCATION

---

#### **IKG Punjab Technical University**

*Bachelor of Technology in Computer Science* | CGPA : 8.90

Fatehgarh Sahib, Punjab

*Aug 2019 – July 2023*

#### **Shiksha Bhawan Hr. Sec School**

*Intermediate* | Percentage : 90

Jammu

*May 2018 - April 2019*
